

01 Why **Strongback**

The story behind the chair

PATENTED POSTURE SUPPORT

Frame-integrated ergonomic curve mirrors the natural lumbar spine. Prevents slouching and reduces pressure on spinal discs — no aftermarket cushion required to sit upright.

LIGHTWEIGHT BY DESIGN

Frame weight under 15 lbs on most Comfort models. Quick-release wheels and a folding backrest make solo loading into a sedan trunk realistic for caregivers.

BUILT FOR THE LONG HAUL

Aerospace-grade aluminum, 5-year frame warranty on the Comfort line. Replacement parts and repair-referral network keep chairs in service.

DEALER & VETERAN PROGRAMS

Premier Dealer Program supports DME providers with pricing, training, and demo stock. Dedicated Veterans program for VA-funded purchases.

02 Self-Propelled **Wheelchairs**

Large rear wheels · user or attendant propelled

HERO

Comfort

Flagship lightweight ergonomic chair. Three seat widths. Attendant brakes on Comfort M and L standard.

Seat 16" / 18" / 20"
