FREESTYLE® COMFORT®
Portable Oxygen Concentrator

The future is here

With its ergonomic shape, the lightweight and affordable Freestyle® Comfort® rests against the natural curves of your body, making it comfortable to wear on the go. TAA-approved for commercial air flights and equipped with user-replaceable batteries, this new oxygen therapy device allows you to extend your time away from home. Our optional telehealth solution - CAIRView™, powered by SynosMed™ - allows for monitoring of the device's location and performance, as well as remote troubleshooting, all from the convenience of a desktop computer or smart device.

A LIGHTWEIGHT SOLUTION
Weighing only 5 lbs., the Freestyle® Comfort® can go anywhere you want to go.

BREATHE EASY, WORRY LESS
UltraSense™, our sensitive breath detection technology, ensures oxygen is delivered to you when you need it.

COMFORTABLE TO WEAR, EASY TO USE
The ergonomic, curved silhouette rests against the natural curves of your body, making it more comfortable to wear when you are out and about.

User-replaceable batteries allow you to extend your time away from home and stay active with up to 4 hours of battery life.

Bluetooth technology connects you to CAIRView™ - a telehealth solution that your provider can use to help ensure you get the support you need.

Enjoy the convenience of wearing it with or without your carry bag by simply attaching the no-slip, padded shoulder strap.

TILT®
Toilet Incline Lift

EZ-ACCESS®

Safety starts at home, and EZ-ACCESS is proud to offer the TILT®, a patented toilet lift solution that provides dignified bathroom safety and lifts to your natural body movement.

Features & Benefits

- The unit is lightweight, yet strong and durable
- Easy installation - typically less than 15 minutes.
- Offers great stability, as the TILT attaches directly to the bowl, rather than pushing the unit over the commode.
- Choose between standard or elongated seats.
- Moves the user 7-1/2" forward, which aligns shoulders over feet for optimal balance and positioning.
- Hand grips remain at the ideal angle, keeping the user's elbow slightly bent for maximum strength positioning.
- The low profile design allows for convenient lateral and slide-board transfers (in the down position, the arms are lower than the seat).
- The assembly is protected by a plastic shield, which can easily be removed for cleaning.
- Unit accommodates users 5' 2" to 6' 4" and bowl heights from 14" to 21".
- Available in corded or battery power.
- Made in the USA.

FREESTYLE® COMFORT

Portable Oxygen Concentrator

The future is here

With its ergonomic shape, the lightweight and affordable Freestyle® Comfort® meets the natural needs of your body making it comfortable to wear on the go. FAA approved for commercial air flight and equipped with two replaceable batteries, this new oxygen therapy device allows you to extend your time away from home.

Our optional telehealth solution, CAIREview™, powered by SpectraMed™, allows for monitoring of the device's breathing and performance, as well as remote troubleshooting. All from the convenience of a desktop computer or smart device.

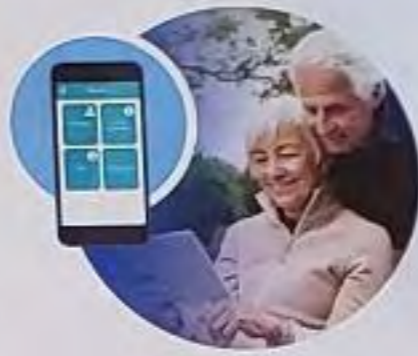

CAIREview™

Telehealth Solution

The future of telehealth is here

CAIREview™, powered by SpectraMed™, is a user-effective telehealth solution you can't see brought to you by CAIRE, the innovator in oxygen concentrator technology. Monitor, troubleshoot & view the real-time app to keep you connected to your oxygen patient and your equipment. The app is compatible with most smart devices for oxygen therapy in the field. When you are back in the office, you can log in to your desktop or from your smart device to view data in the secure portal.

Available on the Freestyle® Comfort®, Eclipse™, and Companion™.
